

ENVIRONMENT AND QUALITY POLICY

MB92 provides its clients with the best technical services specialized in repair, maintenance and refit of large yachts.

This policy is based on the following principles:

- Providing its clients with a high standard quality service, with a commitment to continuous improvement, always striving for excellence.
- Meeting the clients' requirements according to the current legislation, agreements of environmental best practices signed with The Barcelona Port Authority, technical rules concerning the Company, and other voluntary agreements.
- Steadily Improving the capabilities of its staff and the available technical resources.
- Achieving the appropriate level of cleanliness and maintenance of facilities, equipment and working areas.
- Promoting the best environmental practices in order to reduce all possible impact, improving energy efficiency and a sustainable use of natural resources, as well as preventing contamination in all company activities.
- Coordinating with clients and other stakeholders regarding the application of environmental emergency response programs in our shipyard facilities.
- Defining, verifying and correcting the actions of the suppliers acting in the name of MB92, so that they agree and are in line with our Management System.
- Periodically reviewing the quality and the environmental objectives, setting possible agreements on best practices with clients and other stakeholders.
- Reporting this policy to the persons inside the organization, those acting in the name of MB92 and keeping it available to all company stakeholders and the general public.
- Carrying out periodic audits of the Management System in order to verify and to improve its efficiency and to guarantee the improvement of the environmental behaviour.
- Periodically reviewing the present quality and environmental policy in order to keep it in accordance with the organization needs and its context, so it supports its strategic direction.

This quality and environmental policy is approved in Barcelona, on 7th September 2017 by the most senior company manager.
